+20 1278722865

.Tanta,Egypt

Profile

Mechanical Production Engineering student with solid knowledge of CAD design and manufacturing processes, seeking training opportunities to apply design, production, and problem-solving skills in a real industrial environment.

Education

Bachelor of Mechanical Engineering – Production at Tanta university, .Tanta,Egypt **October 2023 - Present**
Grade: 3.6

Skills

CAD & Design: SolidWorks (Part, Assembly, Drawing)

Sheet Metal

Weldments

Basic Simulation

Manufacturing Knowledge: Machining processes

Production systems basics

Tolerances & Fits

Engineering Drawing

Software: Microsoft office (Advanced)

Solidworks (Advanced)

AutoCAD (Basic / Intermediate)

Soft Skills: Problem solving

Teamwork

Time management

Fast learner

Projects

Suspension System Team Member – T-Racers (Formula Student)

- Contributed to the design and development of the suspension system
- Assisted in modeling components using SolidWorks
- Participated in analysis and optimization of suspension geometry
- Collaborated within a multidisciplinary engineering team

Languages

Arabic - Native

English - Basic

Certificates

Certified SOLIDWORKS Professional (CSWP) from Dassault Systèmes · [Link](#)

May 2026

Certified SOLIDWORKS Professional with skills in advanced part modeling, assemblies, configurations, design validation, and engineering documentation using SOLIDWORKS.

Certified SOLIDWORKS Associate (CSWA) · [Link](#)**December 2025**

Certified in 3D CAD design using SOLIDWORKS, including part modeling, assemblies, engineering drawings, and design validation.

3DEXPERIENCE SOLIDWORKS Associate from Dassault Systèmes · [Link](#)**March 2026**

Certified in cloud-based CAD design using 3DEXPERIENCE platform, including part modeling, assemblies, and collaborative engineering workflows.

Six Sigma White Belt**January 2026**

Understanding of Lean Manufacturing principles, waste reduction, process improvement, and basic Six Sigma concepts.

MATLAB Onramp from MathWorks**June 2025**

Completed introductory training in MATLAB, including scripting, data analysis, visualization, and basic programming concepts.
